

# Custom Band Saw Blade Welding Services

**W**ALTER HAMMOND is an authorized welding center for Lenox and Simonds band saw blades. Our blade technicians are factory-trained and we closely monitor all processes and equipment in our weld shop. This means you'll be getting the highest quality welds around. Your welded blades will have perfectly matched teeth and a weld area finished to ensure uniform blade thickness and long production life.

We carry thousands of feet of carbon steel, bi-metal and carbide-tipped coil stock so we are bound to have the blade you need when you need it. We can weld up to 2" wide blades and can ship them the same day. Contact us for band saw blades!
